

Hello Everyone,

I received you all's comments on the doors in the class room and location of the attic stair. Claude has made those changes and I am attaching the final revision. It exactly the same plan that we all agreed on Sunday August 14th in Claude's presence.

Claude is arranging a meeting with Dan to get his input on the structure before he proceeds with design and development of this plan.

<<08-22-05 Final Gurdwara Sketch.jpeg>>

I will be out of Memphis until August 27. I will be at the Kirtan on the August 28th. If anyone has any questions, you can leave me a voice mail (I prefer this option) at 754-8850 ext 554 or call me at my cell 901-337-6911. I will be in meetings in Atlanta and voice mail work better for me.

Sammie - Claude will need from you a detailed kitchen equipment layout, dimensions of the equipment including height. He also need exact locations for 110v and 220v -3 phase power outlets and location for plumbing and drainages. Please contact him directly.

Charan Marwah will be working with me to develop the details for the restroom area (as Sammie is doing for kitchen). Thank you both.

I want to thank everyone for giving their input to the plan. Let's roll the process now.

Thanks a lot and Kind Regards,

Pritpal S. Bansal
